Environment Team News

On Friday, 25th July, 2014, it was School’s Tree Day. On this day students learn how to plant and care for trees and other plants. All the students at Lakemba Public School participated in fun activities on this day.

The environment team and the SRC representatives planted marigolds and mondo grass around the gardens near the driveway. On this day, students from different classes planted as well as watered these plants. The Environment team also cleared the grass and dirt in the garden near the grass area to make it ready for a new Bush Tucker garden.
